Marking the beginning of a new era in Turkish Drama, Phi is a breath-taking romance, with an all-star cast. The first Turkish Drama Original from Ay Yapim, created for Puhu TV.

Can Manay (Ozan Güven, *Magnificent Century*) is a celebrated psychologist, famed for his expertise in his field. A consummate bachelor he beds women but never falls in love. And yet, following his first encounter with Duru (Serenay Sarıkaya, *Medcezir*), he is immediately besotted, to the extent that he buys the house nextdoor to her's, determined to get closer to her. Until her new neighbour moves in, Duru has lived happily with her musician boyfriend, Deniz (Mehmet Günsür, *Magnificent Century*). Can's mindgames ensure that she starts to question their relationship however, though she is not aware of the full extent of Can's scheming. Meanwhile a cast of characters - Bilge, a student of Can's; Özge (Berrak Tüzünataç, *Ezel, The End*), a journalist working on an exposé of the celebrity psychologist; and of course Deniz - will find their lives changed forever, by Manay's crazed pursuit of love.
