

STONE IN THE RIVER

Ever thought about what it takes to develop a vaccine nowadays? The 116 passengers on the tourist boat lost in the Chernobyl disaster would know...

Back in 1986 a Soviet cruise ship mysteriously disappears in Chernobyl just after the nuclear disaster. Decades later three people, all running from their past, arrive at the same hospital just as the mystery of the missing boat starts to unravel. As the trio delve deeper they discover a pharmaceutical company on the brink of bankruptcy, a history of illegal human testing and an outbreak of a mysterious virus. What they don't realize is that the answer to the mystery lies right under the hospital. There they find evidence that links the pharmaceutical company to the illegal testing and the deadly virus.

Stone in the River is a bold, high-end drama that has been compared with genre breaking shows like 'The Bridge' and 'Prison Break'.
